Hans Schnedlitz

I'm a Ruby on Rails engineer specializing in backend and infrastructure. That doesn't mean I'm scared of CSS & JS, though. I like building neat products.

Experience

Ruby on Rails Engineer

Self-employed, 2024-present

Staff Engineer

Meister, 2018-2023

Tech Lead for MeisterTask team. Lead migration to Kubernetes. Introduced Observability and OpenTelemetry. Feature development focused on APIs (GraphQL, REST). Developed several integrations (Zapier, Google Calendar, GitHub…).

Software Engineer

Splendit IT-Consulting (2017-2018)

Developed Eclipse plugin for automated code refactoring. Streamlined internal processes & continuous integration using Docker & Jenkins.

Technical Consultant

Tricentis (2013-2015)

Developed extensions for test automation in Java, C#, Delphi. Maintained WebsphereMQ and ActiveMQ integrations.

Projects

Co-Organizer Vienna.rb Ruby Meetup

Guest Author, AppSignal & RorVsWild

Rails Mini Profiler, GraphQL Groups, and more

Skills

Backend

Ruby on Rails, MySQL, GraphQL, REST, Sidekiq

Infrastructure

Docker, OpenTelemetry, Kubernetes, Helm, Ansible

Frontend

StimulusJS, React, HTML, CSS, Tailwind

Education

BSc Software Engineering
TU Wien (2015-2020)

Mathematics
TU Wien (2009-2013)
